

## Protocol 20.05.2014

### 1. Flashlight / News

- Presentation in Bochum "University" should be around 1,5 hourse
- already contact to person, who cares about the flights for Ghana
- need the contact to Nushin and Anna for the adresslist of the schools
- need to write to the ministry in Ghana if it's possible to do presentations about the platform at schools and universities
- car renting or train to Bochum?
- **5<sup>th</sup> and 6<sup>th</sup> of July Workshop** in Berlin
- **12<sup>th</sup> to 13<sup>th</sup> or 14<sup>th</sup> of July last Workshop**, Berlin or Frankfurt
- **Dresden canceled**, Sandra takes Manuelas space at "Geburtshaus" in Berlin, need to contact "Geburtshaus" if its possible for Manuela also to stay there
- Sandra, Afua and Franzi are going to Prague for International Midwifery Concil, during this Joanna and Manuela meeting in Berlin for the platform

### 2. Bochum

#### - Plan for Presentation:

- Introducing Education for Midwives in Ghana (Afua, Sandra)
  - how to become a Midwife
  - Family situation, how many children etc.
  - ward
  - Painmanagement/ how pain is showed
- Project/ Platform (Franziska, Manuela)
  - what we have until then, plans, first impression
- Southphase (Franziska, Manuela)
  - plans, ideas
  - what appointments are fixed

**- Monday, 26<sup>th</sup> of May Meeting to finish presentation**

### 3. Platform

#### - Copyrights

- Question:

how we manage to get the copyrights for the links we are using at the platform?

--> will get in contact with the IT- people

#### - It- People

- when should we get in contact with them, to ask what is possible at the platform?

#### - bank of old test

- need to get in touch with schools to have a look at old tests to use parts of them for the platform  
--> Afua and Sandra will do this when back in ghana

#### - case study for tests

- use case studies for test at the platform  
--> searching for case studies from Germany at the internet, books  
--> when back in ghana trying case studies at the schools of Afua and Sandra to see how students react to this

#### - structure

- still facing problems how to structure the moduls/platform
    - Questions:
      - Is there are separate room on the platform for every school?
      - subtopics/ moduls on platform basic knowledge  
(students may not come to the lessons at school any more)  
or advanced knowlede additional to lessons?
- > got Answer after Phone call (topic 4.)
- Discussion: Anatomy vs. Other courses
    - Anatomy and Physiology causes most problems for students
- > really important to create courses on the platform

- very easy to create, all over the world the same, no chance to use the influence of the internships experience or culture exchange

- expectations
  - still not clear **which expectations the ministry has**
  - how should we start then?

#### 4. Phone call Joana

- Asked all the questions from Topic 3.

Plan now for the platform:

- take a really small subtopic from the curriculum
- preparing the topic, without thinking where it could fit in the whole platform
- most important to show how a module could work on the platform
- preparing rough structure in **two weeks until around 5<sup>th</sup> July**
- Copyrights: writing what we want to use, talking later if it's possible
